Customize your coverage

Because every family and business situation can be unique, Protective has designed its policies to provide flexibility to its customers. Policy riders and endorsements allow you to customize your coverage even further to fit your individual needs.

These are intended to supplement your policy for very specific purposes. For example, a rider can provide a death benefit for your children, allow you to use a portion of the death benefit to manage the cost of a chronic illness, or provide benefits if you become disabled. You choose specific riders or endorsements to create the additional coverage you need and to fill any gaps in your long-term plans.

Please note that riders and endorsements may not be available in all states, and state variations may apply.
