PROTECTIVE® SERIES FOUNDATION ANNUITY

Single premium deferred fixed annuity

Not FDIC/NCUA Insured	Not Bank or Credit Union Guaranteed	Not a Deposit
Not Insured By Any Federal Government Agency		May Lose Value

Protective refers to Protective Life Insurance Company and Protective Life and Annuity Insurance Company.

The Protective Series Foundation Annuity can help provide the security of knowing what you've been building isn't vulnerable to market fluctuations.

The Protective Series Foundation Annuity provides you with:

- Tax-deferred growth
- Access to a portion of your cash when you need it¹
- An income stream for the future

Here's how it works

Funded with a single payment, the Protective Series Foundation Annuity provides you with a guaranteed interest rate for five years.

With the power of tax deferral, your annuity earns interest that isn't taxed until it's withdrawn. As your interest grows, it too earns interest, compounding your earnings each year.

The guarantee period

The Protective Series Foundation annuity comes with a five-year initial guarantee period. At the end of the guarantee period, your annuity will earn tax-deferred interest at the current renewal rate in effect at that time.

The renewal rate depends on market rates and is guaranteed for one year. Thereafter, it resets annually on the contract anniversary date.

Interest rates

Annuities with a value of \$100,000 or more will generally receive a higher interest rate than annuities with a contract value of less than \$100,000.

Return of premium guarantee

The return of premium feature is an optional feature at no additional cost that must be selected at the time of application. This feature provides protection if you decide to surrender your annuity. However, contracts issued with this optional benefit may earn interest at a lower rate than an identical contract issued without the return of premium guarantee.

If you surrender your contract during the withdrawal charge period, the amount you receive will not be less than the total premium you paid to purchase your contract, minus any amounts previously withdrawn from the contract.

Penalty-free access to account values¹

The free-withdrawal amount is the amount that may be withdrawn each contract year without being subject to a withdrawal charge. The free-withdrawal amount is equal to 10% of the contract value on each contract anniversary.

During the first contract year, the free-withdrawal amount is equal to 10% of the purchase payment. During the withdrawal charge period the free-withdrawal amount is cumulative, meaning any portion not withdrawn during a contract year carries forward to future contract years — up to 20% of the contract value.

Withdrawal charges

A withdrawal charge applies to withdrawals taken during the withdrawal charge period that exceed the available free-withdrawal amount.

Year	Five-year guarantee					
	1	2	3	4	5	6+
% of account value withdrawn	7%	7%	7%	6%	5%	0%

With the return of premium feature, withdrawal charges will not reduce your account value below your single premium, less any prior withdrawals.²

Additional benefits — just in case³

In certain serious health conditions, Protective will waive withdrawal charges if you or your spouse:³

- Is diagnosed as terminally ill
- Enters a hospital or nursing facility and remains there for at least 30 days

You can use this money for any purpose.

Your annuity payout options

With the Foundation annuity, you can opt for a variety of payment methods, including:

- Equal payments over your lifetime
- Equal payments over a specified period
- Equal payments over the longer of your lifetime or a specified period

Build the foundation, enjoy the future

It's your future, and growing a foundation of stability and assurance will help you fulfill your dreams. The Protective Series Foundation Annuity can help by deferring taxes and providing a stream of income you can use as a reliable retirement supplement.

¹Up to 10 percent of the beginning of the year account value may be withdrawn without withdrawal charges. Withdrawals are subject to tax on any gain in the contract and, if taken before age 59½, may be subject to a 10 percent federal tax penalty. In addition, withdrawals will reduce the death benefit and account value. You should consult a tax advisor regarding financial implications.

²Only if Return of Premium Option is selected.

³Does not apply to pre-existing conditions. May not be available in all states.
