¹ If on a contract anniversary, the contract value is less than 50% of the current benefit base, the 7% guaranteed growth rate will be suspended during that contract year, and the benefit base will remain unchanged.

² Benefit base lock-in opportunities occur annually on contract anniversary until age 95.

³ The maximum reserve amount is the lesser of (1) 3x the annual withdrawal amount or (2) the current contract value.

⁴ Excess withdrawals (amounts exceeding AWA and any reserve amount) reduce benefit base and are subject to applicable surrender charges.

⁵ If your contract value is reduced to zero due to benefit withdrawals, your contract will be annuitized and you will begin receiving monthly income payments in an amount equal to your last annual withdrawal amount divided by 12.
