Variable annuities are long-term investments intended for retirement planning and involve market risk and the possible loss of principal. Investments in variable annuities are subject to fees and charges from the insurance company and the investment managers.

Withdrawals may be subject to income tax and, if taken prior to age 59½, an additional 10% IRS tax penalty may apply. More frequent withdrawals may reduce earnings more than annual withdrawals. During the withdrawal charge period, withdrawals in excess of the penalty-free amount may be subject to a withdrawal charge. Withdrawals reduce the annuity's remaining death benefit, contract value, cash surrender value and future earnings.

Investors should carefully consider the investment objectives, risks, charges and expenses of a variable annuity, any optional protected lifetime income benefit, and the underlying investment options before investing. This and other information is contained in the prospectuses for a variable annuity and its underlying investment options. Investors should read the prospectuses carefully before investing. Prospectuses may be obtained by contacting PLICO at 800-456-6330.
